LAGOODISC GOLF

94 m

MANDATORY!
Out of Bounds!

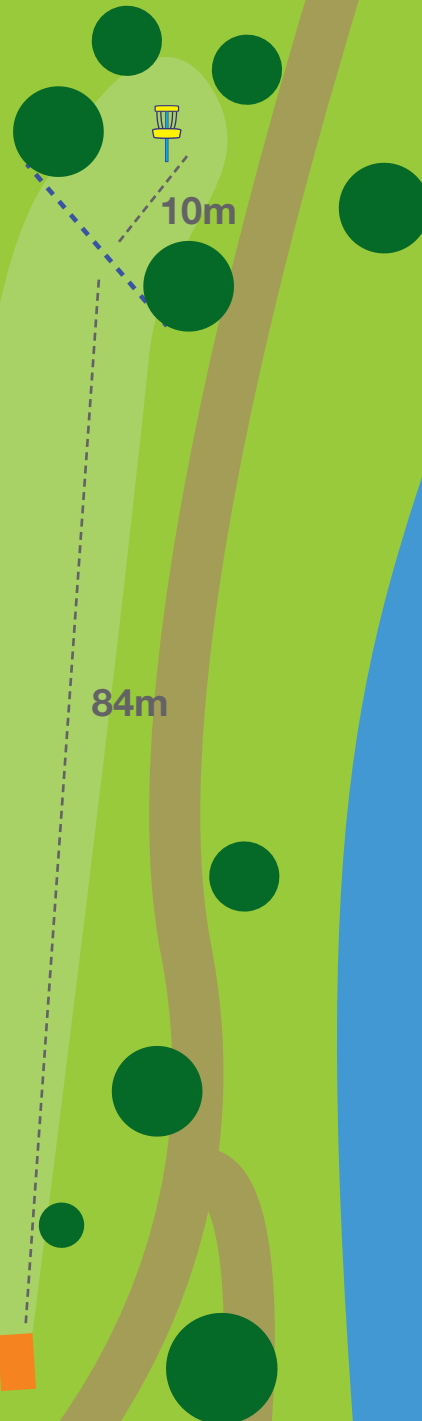

Info:

Throw through the double mandatory "Stargate" (special tournament rule) - you can get through the mando only from the front side. There is no drop zone.

If you miss the mando you need to go around the trees and back.

In case that you miss the mando and while throwing back you cross the mando line from the wrong side than you get 1 penalty stroke and continue playing towards the basket from the mando line (mark your lie with a mini).

OB's are the creek, everything over the creek and the river.

LAGOON DISC GOLF

100 m

Out of Bounds!

Info:

Go for the basket with no penalty throws if you mess up. Or stay safe and go around Buncr Hazard area. In that case, watch out for the creek or Drava.

Buncr Hazard rule explanation:

Shots that come to rest in a Buncr Hazard (OB) must be rethrown. Rethrows must be taken from the original lie, prior to subsequent play by others in the group.

Throws that land in the Buncr Hazard count towards the player's score. But unlike regular OB, there is no extra penalty throw.

The lines bounding the Buncr Hazard are part of the hazard.

The Buncr Hazard rule applies even after the disc has come to rest on the island.

A player may retrieve BH discs but he needs to make the next throw in 30 seconds. If you throw more than 5 discs to Buncr/OB you can retrieve them even while violating 30 seconds limitation.

The creek, everything over it and river Drava are regular OB's.
